or use the one I will provide offline for you)

INSTRUCTIONS:

Here are some of the things to be corrected on the existing webpage:

1. The top and bottom distance between the sections is too much, kindly reduce the distance to a moderate level, (the webpage is too long.)
- 2.

-Change the logo to the company logo (the company logo is the logo beside iconic innovations at the top-left, the logo that look like X, not the one use on figma) throughout the website

-Increase the height/size of the text beside the logo on the Nav bar

The header/navigation will contain:

Home,

About Us {About Us will have dropdown list, the dropdown list will contain: Overview, Our leadership, Africapitalism, Our Branches, Contact},

Our Branches {Our Branches will have dropdown list, the dropdown list will contain: Overview, Iconic Technologies, Iconic Graphics, Iconic Housing/Properties, Iconic Interiors & Painting},

Contact,

Our Goal & SDG, and

Search icon (at the end of the navigation list.)

-Remove the arrow pointing down on the nav bar beside About Us. Remove all the special attributes on 'contact us'. Let it be on the nav bar with others and bring them close to the right-side away from the middle of the webpage (always check: <https://www.heirsholdings.com/>)

-Use Caps for all the text on the navigations bar

-Use the correct company logo as the favicon

-Change the first image displayed on the website into this "real-estate1.jpg" and add other four images to display other branches of the organization by sliding (we will use a sliding effect on the five pictures. It will be best if we can combine both animation effect and sliding effect on the five pictures that will be displayed. Also put little opacity on them so that the text on them can be visible).

Also increase the height of the sliding pictures for large screen like desktop, laptop etc.

Reduce the height for small screens like smartphone so that the webpage will not be too long on smartphones. There should be five dots or circle close to the bottom of the pictures indicating their sliding process

1. Building a Legacy of Innovation, Style, and Impact.
2. We deliver products & services that inspire, empower, and transform lives.
3. Technology | Software & App Development | Real Estate | Interior Design & Painting

The three texts above are to be displayed to the bottom left on the sliding pictures (check: <https://www.heirsholdings.com/>)

-Remove (Building a Legacy of Innovation, Style, and Impact

From technology and real estate to fashion and design, we deliver solutions that inspire, empower, and transform lives.

Book a Consultation

Learn More) from the page, we don't need it now

Add this next

LEARN MORE ABOUT US (make this a link not button, when clicked, the link will take the user to About Us page). This section will not have any image

Text under 'learn more about us' should have a big yet moderate font-size:

The text: Iconic Innovations Nigeria Limited is a multi-disciplinary company committed to redefining industries through innovation, excellence, and creative expression. We operate across various sectors, from real estate and technology to design and fashion delivering premium, sustainable, and forward-thinking products and services that inspire and empower individuals, businesses, and communities across Nigeria, Africa and beyond.

-Remove 'Who We Are' section and the image beside it with the “Discover Our Story” Button

Discover Our Full Range of Services (make this text including the picture and the branches under it clickable, pointing to the "Our Branches" webpage)

Change "Iconic Interiors" to "Iconic Interiors & Painting"

Change "Book a Consultation" to "Book a Consultation with Us"

Our Core Values

- Reduce the top and bottom distance between the sections

- Desktop/Pc users are unable to view the rest of the values, kindly use any user friendly effect to enable them to slide the values and view the rest of the values

Building a Sustainable Future

- Reduce the size of height/size of the image beside "Building a Sustainable Future"

Meet Our Leadership

- Remove "Meet Our Leadership" section. **Note** that the section will be needed on “Our Leadership” page so that you can keep the code and the texts

Let’s Build Something Iconic Together

- Reduce the top and bottom distance between the sections

Your Queries Answered

- Remove "Your Queries Answered" section

FOR SMALL SCREEN (like smartphones)

-Reduce the top and bottom distance between the sections

-Reduce the height of the first images displayed with the sliding effect at the top

-Ensure that the fonts adjust the screen-size, most especially the text on the sliding pictures
